PROFILE

Licensed Air Traffic Controller with around four years of operational aerodrome control experience at Berbera International Airport (HCMI), including day and night operations. Holds ICAO 051 (ATCO Basic) and ICAO 052 simulator training completed in Fujairah, UAE. Fluent in Arabic and English. Also designs and builds software for aviation operations and business, including a tower operations platform now being tested at Hargeisa Tower.

PROFESSIONAL EXPERIENCE

Air Traffic Controller — Berbera International Airport (HCMI), Somaliland — 2022 – Present

- Provide safe, orderly aerodrome control for day and night operations.
- Manage runway occupancy, issue ATC clearances (taxi, line-up, takeoff, landing), and maintain precise aircraft separation.
- Coordinate with adjacent ATS units and airport stakeholders for seamless traffic flow.
- Respond effectively to abnormal and emergency situations, prioritizing runway safety.
- Maintain accurate flight movement records, ATC logs, and conduct comprehensive shift handovers.

ATC Familiarization Training — Egal International Airport (HCMH), Hargeisa — 2026

- Gained operational exposure in a higher-traffic tower environment.
- Practised arrival/departure sequencing, traffic prioritization, and separation of converging inbound traffic.

Finance Officer — SomPower Electric Company, Somaliland — Dec 2016 – Aug 2021

- Financial records, reconciliation, and reporting before moving into aviation.

SOFTWARE PROJECTS

Airport Operations Management System — Developer / Project Lead

- Designed and built a web platform now being tested by controllers at Hargeisa Tower (HCMH) for arrivals, departures, tower logbook, expected traffic, aircraft-on-ground tracking, and operational reporting.
- Turned tower workflows into secure, role-based tools with controller attribution and audit history, reducing dependence on paper records.

Technology: TypeScript • Next.js • PostgreSQL • Supabase • Git/GitHub

Jareeye Moto Delivery App — Developer

- Built a delivery app connecting customers with motorcycle riders.

Business websites — Design & development

- Design and build websites for businesses, including the Kodaro company website (kodaro-website.vercel.app).

EDUCATION

MBA – Accounting, Amoud International University — 2021
